Ford FE engine - Wikipedia  
The Ford 427 ci SOHC "Cammer" V8 engine was nicknamed the "90 Day Wonder" by the team at Ford's version of Area 51 - the X-Garage. The development timeline of the engine was exceedingly short, the mission brief was to develop a high-revving single overhead cam engine for use in NASCAR to take the fight to the Chrysler 426 Hemi "Elephant" V8.

No Reserve: Ford 427 Side Oiler Engine for sale on BaT ...  
The Ford FE engine is a Ford V8 engine used in vehicles sold in the North American market between 1958 and 1976. The FE was introduced to replace the short-lived (in the USA) Ford Y-block engine, which American cars and trucks were outgrowing. It was designed with room to be significantly expanded, and manufactured both as a top-oiler and side-oiler, and in displacements between 332 cu in (5.4 ...

A Rare 1967 Ford 427 ci SOHC "Cammer" V8 Engine  
While Chevrolet did produce a select few 427-cubic-inch engines a few years prior (the Z11) for the Chevy Impala, the wildly popular Chevy 427 V8 engine became available to the general public in 1966.. The engine won instant fans, because the powerplant offered versatility and piles of horsepower. The 427 powered vehicles across the spectrum of Bowtie offerings—from family wagons to Corvettes.

427 Cobra test run

The Chevrolet "Big Block" is a term for a series of large displacement V8 engines that have been developed and produced in the United States from the 1950s until 2009. As American automobiles grew in size and weight following the Second World War, the engines powering them had to keep pace. Chevrolet had introduced its popular small block V8 in 1955, but needed something larger to power its ...
